

## 2015 Parts Explanation & Pricing

Part #	Item Description	Item Explanation	Item Picture
UVLM97-2	Ultra-Lube Acoustic Lubrication Device (complete kit)	This is the complete kit used for proactive acoustic lubrication and comes complete with David Clark headset w/23dB ambient noise reduction rating, electronics enclosure w/adjustable volume control and Probe Tip Sensor (transducer).	
GP-001A	Probe Tip Sensor (extra transducers)	Purchased in addition to the sensor that comes with the Ultra-Lube kit. Commonly used for situations where different grease types are used. Also, fits on Pro-Reach Series extension poles.	
DCH-001A	Headset	Headset with 23dB ambient noise reduction rating.	
YC-001A	"Y" Cable (for recording to data collector)	This Y-Cable adapter is used for recording the Ultra-Lube signal into your existing data collector, vibration analyzer or mini disk recorder. The Y-Cable comes with one end with raw wire leads so that adaptation can be made to whichever plug or jack mates to your equipment. A .wav file or other recording may then be taken into existing analysis software and analyzed.	
YC-002B	"Y" Cable (for splicing two headsets together)	This Y-Cable adapter is designed to be used with two headsets. For comparison of sound or equipment, by two individuals, at the same time. Also, helpful for training situations.	

LEP-001A	Pro-Reach Diagnostic Extension Pole, 4' to 8' extendable (w/out extra sensor)	This item provides an excellent way to quickly inspect and diagnose potential problems on bearings, gear boxes, steam traps, etc. Vibration analysts and Lubrication Technicians can both take advantage of having this important tool. The pole can be extended 4+ feet for hard to reach equipment. Requires purchase of an Ultra-Lube kit (P/N UVLM97-2) and can utilize the existing Probe Tip Sensor (P/N GP-001A). Also comes with a 3" steel stinger probe tip.	
DEP-001A	Pro-Reach Diagnostic Extension Pole, 2 1/2' to 4' extendable (w/out extra sensor)	Same as P/N LEP-001A except comes in a 2 1/2' to 4' extension.	
MEP-001A	Mini-Reach Diagnostic Extension Pole, 18 inches (w/out extra sensor)	This item is similar in style as its larger brothers. Designed specifically for Vibration Analysts and Lubrication Technicians, at only 18 inches in length, it also provides an excellent way to quickly inspect and diagnose potential problems on bearings, gear boxes, steam traps and valves.	
PRS-001A	ProReach Stinger	Staninless steel stinger, designed to enhance transmission of sound through Probe Tip Sensor (transducer).	
CC-001A	Comfort Covers, pair (black cloth ear seal protector)	These cloth covers fit over each ear pad on the headset. They help keep dust, dirt and grease out of the inner components of the headset. Also handy for issues of hygiene where more than one person may be using equipment.	
ES-001A	Ear Seals (foam padded), pair	Replacement ear seals/pads, if needed. Designed with soft foam.	
ES-002B	Ear Seals, (gel filled pads), pair	Upgrade from standard ear seals/pads. These are designed with gel filled padding and are extremely comfortable.
