

I Know Exactly When to Stop.

When guesswork is replaced with the "Acoustic Lubrication Method™," bearing failures drop **dramatically**.

Attach the **Ultra-Lube** to your grease gun, and **bearings will tell you when they've had enough grease.**

The Ultra-Lube

- ◊ Safe and simple to use
- ◊ Inexpensive
- ◊ Extremely durable
- ◊ Reveals existing bearing problems
- ◊ Prevents over- and underlubrication
- ◊ Eliminates grease gun calibration

NEW Pro-Reach!

The Pro-Reach provides an excellent way to quickly inspect and diagnose potential problems on bearings, gear boxes, steam traps, etc. Vibration analysts and lubrication technicians can both take advantage of having this important tool. The Pro-Reach can be extended 5 feet for hard-to-reach equipment. Includes a 3-inch steel stinger probe tip.

Personalized In-Plant Training Program

Revitalize your lubrication program, using the newest methods and train in your plant, on your equipment.
